PROFESSIONAL SUMMARY

Full-Stack MERN Developer with hands-on experience in building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing responsive user interfaces, integrating RESTful APIs, and implementing complete CRUD functionality. Contributed to real-world projects including e-commerce systems, dashboards, and content-driven applications. Strong problem-solving abilities with a solid understanding of data structures and Algorithms and clean code principles. Focused on improving backend development skills and delivering efficient, production-ready solutions.

EDUCATION

Bachelor of Computer Science

Sep 2023 – Present

El-Shorouk Academy – Faculty of Computer Science, Cairo, Egypt

General Grade: B

- **Relevant Coursework:** Data Structures & Algorithms, OOP, Database Systems, (OS)

COURSES

Digital Egypt Pioneers Initiative (DEPI)

2025 – Present

Ministry of Communications and Information Technology (MCIT), Egypt

- Selected trainee in a national scholarship focused on Frontend Web Development using React.js
- Gained hands-on experience in building responsive and interactive user interfaces through intensive training and practical tasks
- Developed strong frontend skills including React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS
- Enhanced soft skills such as teamwork, communication, problem-solving, and time management
- Received training in freelancing fundamentals, professional coaching, and career development
- Collaborated with team members to complete frontend tasks, projects, and assignments under deadlines

SEF Academy – Node.js Backend Development

2025

SEF Academy

- Built backend applications using Node.js and Express.js following MVC architecture
- Designed and implemented RESTful APIs with proper server-side logic and validation
- Worked with MongoDB for database design, CRUD operations, and data relationships
- Completed multiple hands-on backend tasks and practical assignments simulating real-world scenarios

SKILLS

Technical Skills:

- **Frontend:** HTML5, CSS3 (Flexbox, Grid), JavaScript ES6+, React.js (Hooks, Context API, Router, Redux basics), Tailwind CSS, Responsive Design, Form Validation, REST APIs, Axios, Fetch API, NPM, Webpack, Browser DevTools

- **Backend:** Node.js, Express.js (routing, middleware, RESTful architecture), REST API design, HTTP methods, JSON handling, MongoDB, SQL (MySQL), JWT Authentication, CORS, Environment Variables (Dotenv), Basic Security Practices
- **Data Structures:** Arrays, Strings, Linked Lists, Stacks, Queues, Hash Tables, Binary Trees, BST, Heaps, Graphs, Trie
- **Algorithms:** Sorting (Quick, Merge, Heap), Searching (Binary, Linear), Recursion, Backtracking, Dynamic Programming, Greedy, Graph Algorithms (BFS, DFS, Dijkstra basics), Big O notation
- **Tools:** Git (branching, merging, rebasing), GitHub, VS Code, Chrome DevTools, Postman, npm, ESLint/Prettier

Soft Skills:

- Agile basics, Code review, Clean code principles, Documentation
- Team collaboration and communication
- Adaptability, fast learning of new tools, Problem-Solving, Time Management, Self-Learning (300+ hours)

Languages:

Arabic (Native) — English: Reading — Writing — Conversation

KEY PROJECTS

Learning Management System (LMS)

React.js, REST API

- Developed LMS with course, lesson, and user management
- Implemented role-based views for students and instructors
- Integrated CRUD operations for content and interactions

Dashboard Application

React.js, REST API, Chart.js

- Built admin dashboard with dynamic charts and analytics
- Designed modular and reusable components for tables, charts, and cards
- Optimized rendering and state updates for large datasets

E-Commerce Product Dashboard

React.js, Tailwind CSS, REST API

- Developed dashboard managing products with real-time API integration and pagination
- Implemented shopping cart with LocalStorage for persistent operations
- Designed responsive and reusable UI components

Bookmark Manager

React.js, LocalStorage

- Developed bookmark app with add, edit, delete, and categorize functionality
- Used LocalStorage for persistent data storage
- Created reusable components for cards, search, and filtering

YouTube Clone

React.js, YouTube Data API v3, Axios

- Built a fully functional YouTube clone with video browsing, search, and playback
- Integrated YouTube Data API v3 via Axios for fetching videos, channels, and comments
- Implemented responsive UI with category filtering, trending feed, and video detail pages

Web Verse API Application

React.js, Axios, REST APIs

- Integrated multiple APIs for dynamic content and data aggregation

- Managed async API calls with Axios including error and loading handling
- Implemented search, filtering, and pagination for optimized rendering

Multi-Page Static Website Collection

HTML5, CSS3, JavaScript

- Built a collection of fully responsive static web pages including landing pages, pricing pages, portfolio layouts, and product showcase pages
- Applied modern CSS techniques such as Flexbox, Grid, and animations to create visually polished designs
- Focused on clean semantic HTML structure, cross-browser compatibility, and mobile-first responsive design principles
